SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js

Backend: Python, Express, Node.js

Databases: SQLite

Other skills: Data Structures & Algorithms, Express(node), Flexbox, Git, Java, MongoDB, Next.js, OOPs

PROJECTS

E Commerce Website (sainxcart.ccbp.tech)

Developed E Commerce website where users can go through different products, detailed information about a product, offers and contact us info.

- Designed page using following HTML structure elements and footer elements by using different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components and displayed multiple images of offers in a carousel using bootstrap carousel.

Technologies used: HTML, CSS, Bootstrap

Nxt Watch (saikwatch.ccbp.tech)

Built the Nxt Watch application, modelled after YouTube, enabling users to log in, explore video categories such as Trending and Gaming, access saved videos, and search for specific content while adjusting the interface theme.

- Developed Login, Home, Trending, Gaming, and Saved videos pages utilising React components, props, state management, lists, and event handling.
- Facilitated user authentication with username/password input, login API calls, and maintained persistent login states using JWT tokens and local storage.
- Incorporated React Router components for distinct routes and protected access, redirecting unauthenticated users to the login page.

Technologies used: React JS, JavaScript, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.

Covid Dashboard (ksaicovid.ccbp.tech)

Implemented a responsive Covid Dashboard where users can see confirmed, active, recovered and deceased cases in India state wise. Users also can search by state and see state specific cases info with different types of graphs.

- Implemented different routes for features like home, state-specific details, and about by using React Router components Route, Switch, Link.
- Implemented graphs like a bar chart, line chart using React Third Party library Recharts to show different stats.
- Used Figma mockups to implement UI-rich and pixel-perfect React components.
- Explored open-source APIs for covid info and picked covid19india.org APIs for state-wise stats, timelines for graphs, faqs related to COVID.

Technologies used: HTML, CSS, JavaScript, React JS, Recharts, Figma

Chat App (<https://wsocket.vercel.app>)

Designed and developed a modern real-time chat application to facilitate seamless and instant communication between users. The application integrates a robust backend with a sleek and responsive frontend.

- Developed secure API endpoints for user authentication, enabling registration and login.
- Built API endpoints to handle friend requests with real-time notifications via WebSockets.
- Implemented chat-related API endpoints to support private, real-time messaging using WebSockets.
- Designed and integrated a clean, responsive UI using Tailwind CSS for a seamless user experience.

Technologies used: JavaScript, React.js, Node.js, Socket.IO, SQL, Express.js, Tailwind CSS

CERTIFICATES

Certificate in Communication Skills and Soft Skills by National Institute for Micro Small and Medium Enterprises (ni-msme)

Successfully completed a comprehensive training program focusing on effective communication, interpersonal skills, and professional soft skills development.
